Designers

The experience and skill of our designers bring our creations to life with aesthetic sensitivity and deep knowledge of contemporary living.

This dialogue between our philosophy founded on a passion for quality and innovation and the stylistic approach of each designer animates each Tonin Casa product.

Their contribution goes beyond aesthetics: **they interpret the needs of modern living**, designing elements that integrate harmoniously into spaces, **enhancing their identity and comfort**.

Community

Tonin Casa boasts participation in the Biennale del Cinema where a wonderful initiative was presented that distinguished the brand and left its mark.

Tonin Casa welcomed the stars to a dedicated corner at the Sina Hotel Centurion Palace on the Mivida armchair, an iconic model that combines artisanal tradition with modern design, aesthetics and functionality.

The Mivida armchair was officially unveiled as a little diva. This initiative was driven by the desire to provide tangible support to entertainment industry workers, who have been severely impacted by the work stoppage.

The armchair was auctioned off during an event in the new Tonin Casa showroom in Milan, and the proceeds were donated to an association that supports the cinema and its workers.
